João Vinícius Hinkeldey Mota

DevOps Analyst | SRE & Platform Engineering · OCI · Kubernetes ·
Terraform · IaC · CI/CD · Automation

Pomerode, Santa Catarina, Brazil

Summary

Full-stack developer transitioning into DevOps; experience with C#, .NET/.NET Core, ASP.NET MVC, JavaScript, TypeScript, Vue.js, React, SQL, and Oracle Database, building internal systems and banking integrations (remittance/return files, financial reconciliation); skilled in OOP, Design Patterns, APIs, Git, change management (GMUDs), and Agile/Scrum. Currently working as a Junior DevOps Analyst with Docker, Kubernetes, CI/CD (Azure DevOps), monitoring (Prometheus, Grafana, PRTG, Zabbix, Elastic Search), and cloud infrastructure on Oracle Cloud Infrastructure (OCI).

Experience

Quick Soft Tecnologia

4 years 5 months

Junior DevOps Analyst

March 2026 - Present (8 months)

Blumenau, Santa Catarina, Brazil

- Transitioned to Junior DevOps Analyst, working with application containerization and orchestration using Docker and Kubernetes
- Automated CI/CD pipelines using Azure DevOps, optimizing build and deployment processes
- Monitored infrastructure and application observability using Prometheus, Grafana, PRTG, and Zabbix
- Managed cloud infrastructure on Oracle Cloud Infrastructure (OCI)
- Applied prior full-stack development background to support dev teams in troubleshooting infrastructure and pipeline issues

Mid-level Software Developer

November 2025 - March 2026 (5 months)

Blumenau, Santa Catarina, Brazil

- Worked as a mid-level (pleno) full-stack developer with increased technical ownership, using C#, .NET/.NET Core, ASP.NET MVC, JavaScript, Vue.js, ReactJS, and SQL/Oracle
- Reviewed Pull Requests, contributing to code quality and team best practices
- Built internal tools to optimize and streamline the development team's workflow
- Developed and maintained banking integrations, including generation and parsing of bank remittance/return files and financial reconciliation
- Integrated internal and external systems, ensuring data consistency and automated data flows across platforms
- Prepared GMUDs, planning and documenting critical changes for safe production deployments
- Contributed to continuous product improvement, focusing on data integrity, performance, and scalability

Junior Software Developer

January 2023 - November 2025 (2 years 11 months)

Blumenau, Santa Catarina, Brazil

- Worked with greater autonomy on full-stack system development, using C#, .NET/.NET Core, ASP.NET MVC, JavaScript, Vue.js, ReactJS, and SQL/Oracle
- Developed banking integrations, including generation and parsing of bank remittance/return files and financial reconciliation
- Integrated internal and external systems to automate data flows across different platforms
- Prepared GMUDs (change management documentation), planning changes to ensure safe production deployments
- Drove continuous product improvement, focusing on data integrity and system performance
- Worked in a hybrid model, applying OOP best practices, Design Patterns, and Agile methodologies (Scrum)

Entry-level Software Developer

June 2022 - January 2023 (8 months)

Blumenau, Santa Catarina, Brazil

- First professional experience as a full-stack developer, working on internal tools and client-facing products using C#, .NET/.NET Core, ASP.NET MVC, JavaScript, Vue.js, and SQL/Oracle
- Developed and maintained applications following Object-Oriented Programming (OOP) best practices and Design Patterns
- Consumed and integrated APIs to connect different parts of the system

- Collaborated within an Agile team (Scrum), using Git and Azure DevOps for version control and task management
- Built strong foundations in teamwork, organization, and problem-solving in an on-site environment

JMA Tecnologia LTDA

Mobile Software Developer

July 2025 - November 2025 (5 months)

Guaramirim, Santa Catarina, Brazil

- Freelance development in React Native, JavaScript, and CSS for the maintenance and evolution of two mobile applications across different market segments
- Fixed bugs and resolved technical issues, improving stability across both applications
- Implemented new features tailored to each client's specific requirements
- Enhanced UI/UX, improving the overall user experience
- Fully remote role, working directly with clients to gather requirements and prioritize tasks

Education

UNIASSELVI

Bachelor's degree, Information Systems · (January 2024 - December 2027)

Wizard By Pearson

Japanese Language and Literature · (June 2023 - July 2024)

EEB José Bonifacio

High School Diploma · (May 2022 - December 2022)

SENAI/SC - Serviço Nacional de Aprendizagem Industrial

Vocational High School Diploma, Software Development · (February 2020 - May 2022)

Wizard by Pearson

English Language and Literature · (February 2016 - January 2020)
